I would like to see some form of Yoga or aerobics classes offered in the evenings during the week (at approx. 6pm) or on Saturday's for those who do not work on the installation and are not able to participate in some of the daytime activities.

I feel that this program needs a lot of work. I am a little concerned that most of the activities here on the depot include the depot employees and their families. I guess what I am trying to say is that the military families who live here on this depot feel that we come second instead of first. I feel that the morale here is very poor. Myself and many others here feel cheated, that we are always last on the list for everything. There should be more activities offered to just the military families here and less offered to the depot employees. I was never so put back as I was when we moved here and found out that depot employees got childcare slots over military. Your military families should always be put first even if there are only 40 families here. This is our first time ever being on a post or base where we have felt not wanted. On a more positive note, we take our hats off to Linda Kerr who has made our children very welcomed here. The things she has done since we have been here are amazing. The activities that MWR has provided have been good, there should just be more involving the families here.

It was a good idea when the travel department offered vacations.. disney etc.
they should bring that back...

I would like to see a more "full service" restaurant made available to employees, with a regular menu containing several choices of soups, sandwiches, meals, etc., instead of the "this is what we're serving today" type of menu.

I believe an exercise program at lunch time mainly seperate for men and women would be a great benefit, like aerobics, step aerobics, etc..... Mac Field House would be a great place to meet, get an instructor, I'm sure folks would chip in.

We have such long hours at work with traveling and all, everyone is getting up in age and no one has time to exercise before or after work, I think the morale would greatly improve for everyone.

Also the Landing should be open more for Fri Happy Hours, etc. Right now its only used for planning vacation trips etc. It's a very very nice place to have it used for that -

Tobyhanna Army Depot does an excellent job providing employees and assigned military various events and information. If the depot were closer to home, I would utilize the available activities much more than I do now.

The menus in the Post restaraunts should change periodically. Perhaps offer fresh seasonal fruit (melons, berries, etc.) The menu/specials are always the same. Also, consider installing microwave ovens in the cafeteria areas for those who do not wish to purchase cafeteria food, but would like to spend their lunchtime with co-workers in the cafeteria area and away from their desks.

As a regular racquet ball player, for many years, I am extremely disappointed that the benches have been removed from behind the glass viewing area at the back of each court. These benches were an important part of the racquet ball experience as they were used for a rest and viewing area during play. With the removal of the benches, this area has become a dirty storage area and no longer of use to the players.

I also feel that unsafe conditions are now present, around the gym floor, with too much equipment being set up along the floor's perimeter.

The Mack Field House, has great equipment and facilities, but it is too cluttered with equipment. The facility need to expanded.

I have used the Child Development Center in the past and was very happy with the care my children received. The only reason I left is because my school district does not bus to this area.

I have made purchases at the One Stop Shop and have also borrowed CDs and Tapes from the One Stop Shop. The staff there is always very nice and helpful.

I think the MWR does a great job, though I am not active in alot of programs (due to living so far). But the classes offered, especially for the children, I would take advantage of if not for the traveling invloved. I do love the tanning facility. And the library has a vast selection of DVD's to choose from. All in al I think MWR does a great job!

Do not agree that the fee that you pay for the Child Development Center for your childs care goes on your salary. All children receive the same care and attention at the Center. All children should be charged the same amount. Why should I be paying more (or less) than the next person just because I or my Husband make more (or less) than someone else. It just doesn't seem fair. Everyone should be paying the same amount.

We live aproximately 21 miles from TAD.
Currently we visit TAD to use the comissary & PX.
With TAD's location, I believe any & all MWR services would be appreciated.

I am retired, and Tobyhanna is a small post. I have many of the services closer to home. However, I believe the Morale, Welfare and Recreation services are important, and I used them a great deal when I was on active duty. I believe strongly that MWR facilities show that the Army cares about its members. So, even though I don't extensively use the MWR facilities at Tobyhanna, it is because the post is in the opposite direction of my work, and because at this time I am very busy in my civilian job.

This is a small post with very little military (permanent party)...we do service a lot of reservists/national guard on training and a retiree community. Would like to see more events that would involved them. Also, transporation is an issue, without a car you can only get to select areas, even if the club were open for lunch you would need transporation to get there or else not make your 30 min lunch.
